Sunseeker Superhawk is 15m in length and comfortably takes up to 10 people on board. With its beautiful lines and top end design, Sunseeker redefined the luxury cruising market with this model.

Sunseeker are famous for using only the best quality materials and the design is extremely stylish and comfortable. There is plenty of sunbathing, with a large daybed on the front deck an extra large daybed on the back, as well beautiful cockpit seating.

Three Volvo Penta turbodrive engines, combined with the Cigarette shape deep-V hull, give this boat an excellent combination of stability and speed that other boats wish they could achieve. In all waters it handles like a dream (even choppy and windy) and is completely safe for all groups of people, including families and small children.

Thanks to its amazing aerodynamics, the boat is extremely efficient and uses less fuel than every other boat of this size and spec. Fuel consumption tops out at 145€ engine hour for all 3 engines and a typical day uses between 200€ - 350€ for a return trip to Formentera.

Because this boat is so beautiful, it has been the boat of choice in the James Bond films over years, the last being with Daniel Craig racing it through the River Thames! So not only will you have an amazing day out, you will also have cruised in a Bond boat! The Superhawk 48 is Sunseekers' most iconic model, and remains as modern looking today as when it was built.

Prices include a great day out with an experienced and friendly captain, good music (the boat has an ipod/aux dock) and ice/soft drinks/cold beer. Extra drinks can be organised upon request.
